U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
on APRIL 30, 1978
 - Export Shipments in
Current Marketing Year
 - Daily Sales Reported
MAY 1 - 7, 1978
- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

MAY 22 1978

EXPORT SALES REPORT

Comments on release of May 11, 1978, (based on reports from exporters for the week ending April 30, 1978).

Wheat: New sales activity continues extremely light as the marketing year (MY) draws to a close. A number of contract adjustments and destination changes were reported. New business resulted in only a small increase in total outstanding sales for MY 1977/78. MY 1978/79 sales (209,300 MT) were also slow, as several countries added to existing contracts. With only one month remaining in the current MY, it is quite likely that some of the outstanding 1977/78 sales will carryover into the next MY. An improvement in exports (784,800 MT) enhances the possibility of reaching the USDA export projection.

Corn: A strong recovery in new sales activity (1,224,700 MT) was led by sales to the USSR (as reported under the daily system). Japan and numerous European countries nominally increased their purchases. Sales previously reported to Canada and unknown were switched principally to the U.K., Italy and Japan. Sales of 76,200 MT to the Netherlands were switched from the current MY to MY 1978/79. MY 1978/79 sales (159,300 MT) were rather small with Japan the only notable participant. Exports continued heavy, exceeding one million MT for the fifth time in the last seven weeks.

Sorghum: Sales activity was moderately heavy as Venezuela's purchases increased by 176,700 MT (as reported under the daily system). Israel and Iran added lesser amounts. Optional origin sales declined as Japan nominated suppliers other than the U.S. Exports picked up after two relatively slow weeks.

Soybeans: Market interest continued strong, although down from the preceding week's exceptional level. Exporters reported a net increase of 215,500 MT in sales for MY 1977/78 and 279,900 MT for the next MY. Japan (102,000 MT) and the EC (70,800 MT) were the major customers for the current MY, while the same two areas plus unknown accounted for most of the 1978/79 sales. Exports (512,700 MT) continued the heavy pace of the preceding week.

Soybean Cake and Meal: Market activity was fairly heavy. Modest purchases by the Netherlands, Poland and Mexico for MY 1977/78 were nearly offset by shifts in sales from the current MY to MY 1978/79 for a number of countries. Italy, West Germany and unknown destinations accounted for most of the shift. In addition, new sales increased total purchases for MY 1978/79 by 158,600 MT. The export pace (180,200 MT) registered a sharp increase over the preceding week.

Soybean Oil: The PRC accounted for the bulk of the week's activity as purchases of 10,000 MT and contract adjustments made up their weekly exports of 13,000 MT. Exports were moderately heavy with shipments also going to Pakistan, India and a number of other countries.

Cotton: Sales activity increased to a moderate level. MY 1977/78 sales of 46,700 RB were mainly to Canada and Korea. MY 1978/79 sales of 97,000 RB were principally to Japan, Hong Kong and Taiwan. Exports continued large, as 149,300 RB were shipped, 83 percent to Asia.

Oats, Barley and Rice: Showed no significant activity.

DATA ON TRANSACTIONS REPORTED UNDER THE DAILY REPORTING SYSTEM FOR MAY 1-7 APPEAR ON PAGE 4.

SUMMARY OF CURRENT WEEK'S TRANSACTIONS BY REPORTING CATEGORY

For Week Ending April 30, 1978

Commodity	: Beginning : New : Purchases From : Buy-Backs and : : Outstanding

Data shown above may not add due to rounding. 1/ Includes increases resulting from new sales, upward contract adjustments, shifts in delivery period from one marketing year to another and changes from one commodity to another. 2/ Net foreign purchase activity. A purchase from a foreign seller is a transaction contracting to buy U.S. produced commodity from a firm outside the U.S. -- not involving a cancellation or buy-back of a reported sale. 3/ Includes decreases resulting from buy-backs of all or part of a contract balance by mutual consent, unilateral cancellation by one party which could result in a contract dispute, downward contract adjustments, shifts in delivery period from one marketing year to another, and changes from one commodity to another. 4/ Does not include exports for exporter's own account.
